

*By Oliver Tenney*

During quarantine I have enjoyed  
Hikes and adventures in the calm green forest  
And bike rides around my property.  
I believe exercise and fresh air are  
Very important to staying healthy.

Working has also been fun for me  
And a good way to make money.  
Along with daily workouts and exercise,  
It is important to take advantage of all this time we have.

Overall this opportunity  
Has given us a good chance  
To learn and be in the great outdoors  
With all of the wonderful wildlife  
And beautiful nature.
