

# Empty

*By Jillian Eldridge*

I remember seeing people  
I remember having classes  
I remember school work  
And Science lab glasses

I remember sports  
I remember fun  
I remember long days  
And them being done

I remember hard work  
I remember deadlines  
I remember socializing  
All good times

But now all is empty,

No "Hello's"  
No "Goodbyes"  
No "Take Care's"  
No "Explain why's"

Just silence.

So now, the bell no longer rings.  
No-one is to be found  
All is empty at school  
Until fall comes around
